ENGINEERING & EPC PORTFOLIO

CREATECH ENGINEERS

ABOUT US

IMPORTER & SUPPLIER

Sourcing and supplying high-quality industrial equipment and materials from trusted global partners.

EPC SOLUTIONS (ELECTRICAL + MECHANICAL)

Providing integrated Electrical and Mechanical EPC solutions with advanced technology and engineering excellence.

TURNKEY PROJECTS

Delivering complete turnkey solutions from concept, design, and construction to commissioning and handover.

CIVIL CONSTRUCTION

Delivering high-quality civil construction solutions with a focus on safety, durability, and timely execution.

WE DELIVER END-TO-END SOLUTIONS — FROM CONCEPT TO COMMISSIONING

CREATECH ENGINEERS is a multinational engineering firm delivering innovative and integrated solutions across Civil, Electrical, and Mechanical disciplines. With a strong commitment to quality, safety, and sustainability, we serve clients across diverse industries through our global offices and project operations.

Headquartered with a global outlook, we are proud to operate in Pakistan, Sweden, Australia, and the UAE, supporting infrastructure development and industrial growth.

Our experienced team, global partnerships, and customer-focused approach enable us to deliver projects that create long-term value for our clients and communities.

Our Solutions & Expertise

At CREATECH ENGINEERS, we deliver integrated engineering solutions across Civil, Electrical, and Mechanical disciplines—combining technical excellence with practical innovation to build better, smarter, and sustainable infrastructure.

Electricial & Mechanical Projects

- Power systems
- Escalators & elevators
- Generator sets
- Variable frequency drives (VFDs)
- Electrical control panels

Powering operations with advanced electrical systems and equipment built for reliability and efficiency.

MEP Works

- Pumping solutions
- Firefighting systems
- UL/FM fire pumps
- Gas suppression systems

Integrated Mechanical, Electrical & Plumbing solutions designed for safety, efficiency, and performance.

Civil Infrastructure

- Highways & road infrastructure
- Buildings & civil works
- Water supply systems
- Wastewater management

Delivering reliable and resilient civil solutions that form the foundation of sustainable communities.

Building Automation Systems

- Building automation & control
- Integrated monitoring and control solutions
- Smart building systems

Smart, connected solutions that enhance building performance, comfort, and operational efficiency.

One Partner. Complete Solutions.

From concept to commissioning, we deliver reliable, efficient, and future-ready engineering solutions that stand the test of time.

CREATECH ENGINEERS

Civil Infrastructure Works

Highway construction and rehabilitation with safety, durability and performance.

Residential, commercial, industrial and institutional building projects.

Road works including earthworks, pavement and drainage.

Civil Infrastructure Works

Delivering resilient infrastructure for stronger, connected communities.

Built for Progress

Creating lasting value through quality, safety and timely delivery.

At CREATECH ENGINEERS, we deliver high-quality civil infrastructure solutions that build stronger, smarter and more connected communities. Our expertise covers the full spectrum of civil works — from highways and roads to complex building and infrastructure development projects.

Highway & Road Works

Construction and rehabilitation of highways and roads with a focus on safety, durability and efficiency, including earthworks, paving and drainage systems.

Building Works

Execution of residential, commercial, institutional and mixed-use building projects with quality craftsmanship and modern construction standards.

Infrastructure Development

Delivering integrated civil works that combine technical excellence with innovation — ensuring safety, durability, efficient delivery and long-term performance for a sustainable future.

Engineering a Better Tomorrow

Quality Infrastructure. Sustainable Growth.

CREATECH ENGINEERS

PUMP SYSTEMS

Engineered for demanding environments — our pump systems deliver consistent performance across water supply, wastewater, industrial processes, and commercial infrastructure.

DISPOSAL STATION PUMPS

Non-clogging pumps engineered for sewage and wastewater disposal stations with high solids-handling capability.

CENTRIFUGAL PUMPS

Industrial-grade centrifugal pumps for HVAC, raw water, pressure boosting, and process applications.

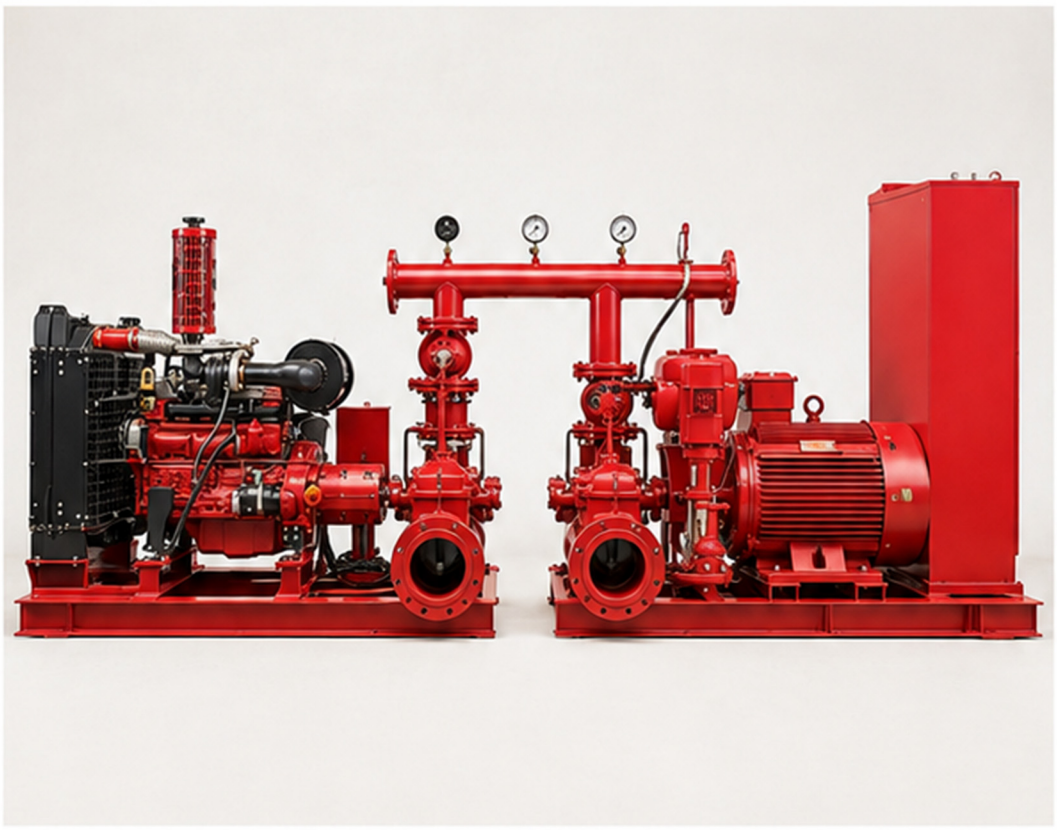
BOOSTER PUMP SYSTEMS

High-efficiency booster systems for commercial buildings, residential towers, and municipal infrastructure.

CREATECH ENGINEERS

FIRE PROTECTION SOLUTIONS

Reliable. Compliant. Engineered for safety.
We deliver advanced fire protection systems and equipment designed to safeguard people, property, and critical infrastructure with performance you can trust.



UL LISTED & FM APPROVED FIRE PUMPS

High-performance fire pump packages for commercial, industrial, and institutional applications — fully compliant with UL/FM standards.

GAS SUPPRESSION SYSTEMS

Clean agent gas suppression systems for critical environments — data centers, server rooms, and electrical facilities.

Elevators & Escalators

Engineered for demanding environments — our vertical transportation systems deliver consistent performance across commercial, residential, healthcare, and public infrastructure.

Passenger Elevators

Smart, efficient elevator systems designed for smooth, safe, and comfortable vertical transportation in residential buildings, offices, hotels, hospitals, and commercial complexes.

Escalators

High-performance escalators engineered for continuous people movement in malls, airports, transit stations, retail centers, and other high-traffic public spaces.

Vertical Transportation Solutions

Integrated elevator and escalator solutions built for reliability, efficiency, safety, and long service life — supporting modern buildings and high-traffic infrastructure with dependable people movement.

ELECTRICAL & CONTROL SOLUTIONS

Integrated electrical solutions ensuring safe, efficient, and reliable operation of industrial systems — from power distribution to full automation.

ELECTRICAL PANELS

Custom-designed power distribution panels for industrial and commercial facilities.

VFD'S

Variable Frequency Drives for Industrial and Commercial Equipment

0.5KW-02MW

AUTOMATION SOLUTIONS

SCADA and remote monitoring systems for intelligent infrastructure management.

OUR CLIENTS

Trusted by leading names across textiles, manufacturing, energy, and infrastructure.

CREATECH ENGINEERS

Createch Engineers delivers engineered solutions across a wide spectrum of sectors — backed by technical expertise, certified products, and proven project execution.

WATER & WASTEWATER

Complete solutions for water supply, treatment, distribution, and wastewater management systems.

COMMERCIAL BUILDINGS

Engineered MEP solutions for offices, malls, hospitals, hotels, and other commercial establishments.

INDUSTRIAL FACILITIES

Reliable systems and equipment for manufacturing plants, processing units, and industrial operations.

POWER & ENERGY

Solutions for power generation, transmission, and distribution with a focus on efficiency and reliability.

AGRICULTURE

Irrigation, water management, and agri-infrastructure solutions that drive productivity and sustainability.

INFRASTRUCTURE PROJECTS

End-to-end support for roads, bridges, utilities, and public infrastructure development projects.

WHY CHOOSE CREATECH ENGINEERS

- CERTIFIED QUALITY PRODUCTS
- DEEP TECHNICAL EXPERTISE
- RELIABLE AFTER-SALES SUPPORT
- CUSTOMIZED ENGINEERING SOLUTIONS
- PROFESSIONAL PROJECT EXECUTION
